Midterm Exam Update

Midterm Examination was held from 30th Nov-15th Dec 2011 in the preprimary, primary and secondary sections.

Report cards will be given out during Parent Teaching Meeting on 14th January 2012.

After examination, students at all grade levels happily arranged classroom parties. Special invitation cards were made by students to invite the administrative and teaching staff and classrooms were beautifully decorated for the occasion. Food and drinks were brought by students from home.

Parents’ Orientation Meetings

Parents and teachers have a common goal: a successful school year for every child. Parents’ Orientation Meetings were held in October and November by the principal, Mrs. Shahina Mahmood, for parents of O’ Level and Grade V-VIII students respectively.

The meetings were followed by question and answer session and the Parent Handbook, prepared by the principal, was distributed among the parents in the end.

The greater danger for most of us is not that our aim is too high and we miss it, but that it is too low and we reach it.

Principal’s Letter

Assalamu alaikum,

It is wonderful to be back in school. I hope everyone has had a restful summer, blessed Ramadan and joyous Eid.

I would like to thank my friend Ms. Peggy Archer from the United States who came to Pakistan and joined our school to teach and train the teachers and students. I would, in the same vein, thank the teachers for having worked tirelessly through the entire term and to have managed a tight rope balance between fulfilling their academic responsibilities along with arranging a series of big and small events.

The year has been full of promise; there is renewed vigour in the students taking an active part in a holistic approach to school. I have always maintained that the building of integrity and honour is the catalyst to changing our society. Let us, the parents and teachers, leave a legacy that will change the destiny of our youth.

Like every year, the sadaqa collection activity began during Ramadan in all classes. The school provided each classroom with a money-bank to collect charity for the poor. The school also contributed the initial amount in each money bank.

The activity continued throughout the holy month. At the end of Ramadan the amount was donated to Alamgir Welfare Trust by a group of O Level students.

Benefits of Coffee

It reduces the risk of onset of diseases such as Parkinson’s, Alzheimer’s & gallstone disease. It contains the compound methylpyridinium, a known anti-cancer compound.

People who consume 2-3 cups of coffee every day are more productive at work and remember things better.

It regulates blood pressure and intestinal functions in the body.

The word coffee derives from the Ottoman Turkish kahve, via the Italian caffe. The Turkish word in turn was borrowed from the Arabic qahwah.
